WHO WE ARE?

- Cyanlite was established in 2015 as a subsidiary of CYAN lighting group, aiming for the professional customers who have specific and premium requirements for office lighting.

CYANLITE PHILOSOPHY

Our Philosophy

Righteous People, Reliable Product.

Our Mission

Contributing by offering the good light.

Our Vision

Growing and building a win-win relationship with customers, partners and employees.

Core Values

- Customer-oriented.
- Relentless Innovation and Long-term thinking.
- Integrity, Reliability and Responsibility.
- Facts-based doer, always getting things done firmly.
- Flexibility and Continuous Improvement.

CYANLITE STRENGTH

PROFESSIONAL KNOW-HOW

- Different from commodity products, our products require much more know-how for the lighting as well as different ceiling systems. Our strength is integrated the lighting perfectly to all kinds of installation and perfectly deliver what customers need.

- ✓ Mineral Board Ceiling
- ✓ Plaster Board Ceiling
- ✓ Metal Ceiling Systems (Compatible with All major brands in the market)

ETO -ENGINEERING TO ORDER

- The R&D team of Cyanlite has more than 15 years experiences of developing various kinds of lighting products, for different projects and applications such as Office, Education, Health Care and Specialty Lighting. With the strong supports of our Supply Chain Management, we can deliver all customized products clients want.

LEAN MANUFACTURING AND KPC

- Key Process Control is one of the essentials for Lean Manufacturing, to ensure the overall product quality level and avoid waste. We will demonstrate how and what we do of the each KPC during manufacturing when customer visit us on site.
- We have accumulated so many FMEA (Failure Mode and Effect Analysis) for manufacturing a good product, and our KPC are set up based on these valuable experiences.

QUALITY CONTROL

- The quality is assured and controlled by multiple times checking from the beginning to the end of whole product manufacturing cycle, from incoming material (IQC) to product shipment (FQC).
- A PSI (Pre-Shipment Inspection) report will be provided to customer for each order, you know what you will have before you receive them.
- Quality costs money, as we need to use good material and excellent manufacturing process. Quality saves more money, as you pay for cheap, you pay twice.

Pre-Shipment Inspection Report

SUPPLY CHAIN MANAGEMENT

- We have developed a strict supply chain management policy and polished it over the years. With this scientific system, we have achieved excellent control on material cost, quality and lead time.
- For our clients, supply chain management enables us to provide stable quality products with fast delivery at a competitive cost. It's also an essential for us to be flexible and meet all kinds of special requirements from customers.

PRODUCT PHILOSOPHY

■ In Cyanlite, the products are designed and produced under 2 basic philosophies.

1. **High Quality** – we don't produce inferior products, as normally the replacement is very costly and troublesome. We prefer to be cautious in the first place than sorry afterwards.
2. **Easy Installation** – we understand sometimes the installation cost is even higher than the product itself, customer can save huge money if the products can be installed perfectly and quickly.

LIGHTING FOR ALL CEILINGS

- We provide complete lighting solution for all kinds of ceiling systems and installations, besides Mineral Board Ceiling and Plaster Board Ceiling, Cyanlite has sophisticated lighting product range for many different Metal Ceiling systems.

SOLUTIONS FIT FOR MOST BRANDS

- Cyanlite is very experienced and has solid knowledge of all the major ceiling types from most ceiling brands, such as SAS, Armstrong, DURLUM, FURAL, Knauf AMF, Burgess CEP by System', Hunter Douglas, Rockfon, Lindner, OWA Odenwald, Gradhermetic etc.,
