WHO WE ARE?

Cyanlite was established in 2015 as a subsidiary of CYAN lighting group, aiming for the professional customers who have specific and premium requirements for office, commercial and administrative lighting.

The R&D team of Cyanlite has more than 15 years experiences of developing various kinds of lighting products, for different projects and applications such as Office, Education, Health Care and Specialty Lighting. With the strong supports of our Supply Chain Management, we can deliver all customized products clients want.

I

CYANLITE PHILOSOPHY

| Our Philosophy | Righteous People, Reliable Light. |

| Our Mission | Contributing by offering the good light. |

| Our Vision | Growing and building a win-win relationship with customers, partners and employees. |

| Core Values |
- Customer-oriented.
- Relentless Innovation and Long-term thinking.
- Integrity, Reliability and Responsibility.
- Facts-based doer, always getting things done firmly.
- Flexibility and Continuous Improvement.

Cyanlite
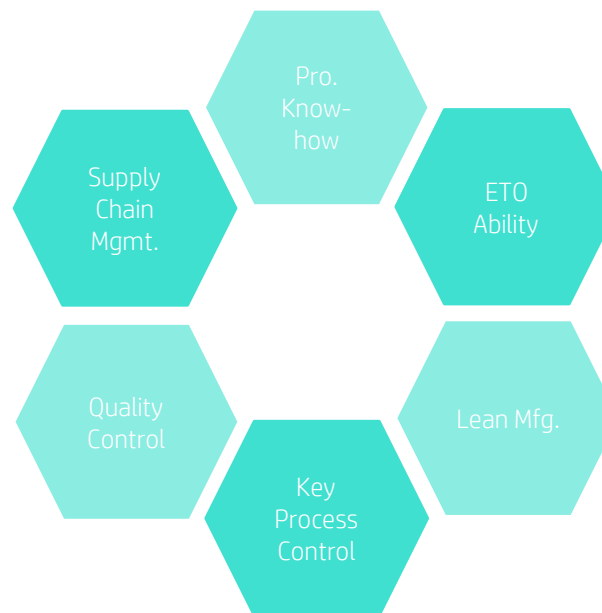

PROFESSIONAL KNOW-HOW

■ Different from commodity products, our products require much more know-how for the lighting as well as different ceiling systems. Our strength is integrated the lighting perfectly to all kinds of installation and perfectly deliver what customers need.

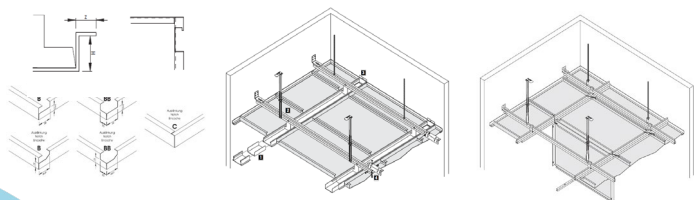

☑ **Mineral Board Ceiling**
☑ **Plaster Board Ceiling**
☑ **Metal Ceiling Systems**

STRONG ETO ABILITY

■ Strong R&D team with professional know-how and solid experiences. We have been cooperating with countless European top lighting brands and premium projects, delivering all kinds of tailor-made lighting products to meet their various special requirements perfectly.

■ Outstanding Supply Chain Management. A strong and stable supply chain is a must to meet all kinds of requirements.

■ All Cyanlite account managers have at least five years experiences in the LED lighting industry with a solid technical background and fluent spoken/written English. To understand customers' requirements 100% and efficient 2-way-communications is a key to the success of ETO.

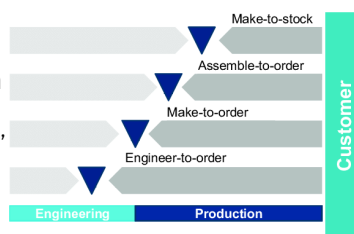

QUALITY CONTROL

■ The quality is assured and controlled by multiple times checking from the beginning to the end of whole product manufacturing cycle, from incoming material (IQC) to product shipment (FQC).

■ A PSI (Pre-Shipment Inspection) report will be provided to customer for each order, you know what you will have before you receive them.

■ Quality costs money, as we need to use good material and excellent manufacturing process. Quality saves more money, as you pay for cheap, you pay twice.

SUPPLY CHAIN MANAGEMENT

■ We have developed a strict supply chain management policy and polished it over the years. With this scientific system, we have achieved excellent control on material cost, quality and lead time.

■ For our clients, supply chain management enables us to provide stable quality products with fast delivery at a competitive cost. It's also an essential for us to be flexible and meet all kinds of special requirements from customers.
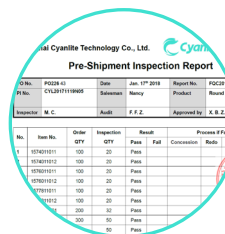

PRODUCT PHILOSOPHY

■ **In Cyanlite, the products are designed and produced under 2 basic philosophies.**

1. **High Quality** – we don't produce inferior products, as normally the replacement is very costly and troublesome. We prefer to be cautious in the first place than sorry afterwards.

2. **Easy Installation** – we understand sometimes the installation cost is even higher than the product itself, customer can save huge money if the products can be installed perfectly and quickly.

LEAN MANUFACTURING AND KPC

■ Key Process Control is one of the essentials for Lean Manufacturing, to ensure the overall product quality level and avoid waste. We will demonstrate how and what we do of the each KPC during manufacturing when customer visit us on site.

■ We have accumulated so many FMEA (Failure Mode and Effect Analysis) for manufacturing a good product, and our KPC are set up based on these valuable experiences.

LIGHTING FOR ALL CEILINGS

■ We provide complete lighting solution for all kinds of ceiling systems and installations, besides Mineral Board Ceiling and Plaster Board Ceiling, Cyanlite has sophisticated lighting product range for many different Metal Ceiling systems.
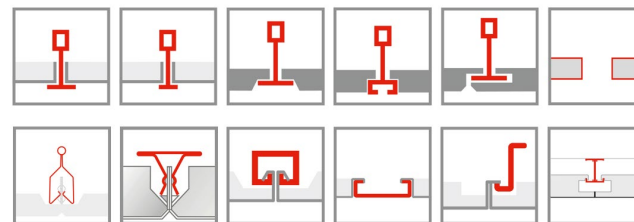

SOLUTIONS FIT FOR MOST BRANDS

■ Cyanlite is very experienced and has solid knowledge of all the major ceiling types from most ceiling brands, such as SAS, Armstrong, DURLUM, FURAL, Knauf AMF, Burgess CEP by System', Hunter Douglas, Rockfon, Lindner, OWA Odenwald, Gradhermetic etc.,

LED Linear Light

LED Linear Light

**BR**-Black Reflector

Timo BR — Black Reflector
- •- UGR<16 at 60D beam, UGR<19 at 90D beam
- •- All patterns are possible; Seamless Connection.
- •- One driver to multiple light module, loop in&out
- •- 5 Years Warranty; CE, RoHS2.0, REACH approval
- •Product description： The Cyanlite™ LED T grid linear light - Timo, is designed for T15/T24 T bars. No need to modify or change anything on original T-bar or ceilings, Timo is fixed to the original T bar easily and fast.
