Cyanlite Novelty LED Backlit Panel Light-Nova Series

Overview

The Cyanlite™ Novelty LED Backlit panel lights Nova series are designed for high-end premium projects, especially for clients who are looking for differentiation. Inside the square panel, it comes with 4 luminous shapes, round, fan-shaped, diagonal and hexagon. This fully allows clients to choose and assemble patterns to their preferences. Adopting the benefit of LED Backlite technology, this luminaire has no light guide inside, no worry about yellowish problem compared with edge lit panel light. The aluminum frame is stylish and fashionable, stable, and with excellent thermal management. It could directly fit into the Lay-On ceiling systems perfectly, no need for extra accessories. Flicker free, on off as standard; 1-10V and DALI dimming are optional. A good product for office, hospital, school, shop, and other open planed location.

Bespoke sizes and shapes are available on request.

Advantages

- Different and stylish, freedom to create patterns as clients wants.
- No light guide, no yellowish problem.
- Needs no additional installation accessories, saving material cost
- Easy and fast installation, no additional job for screws or adjustment, saving installation cost
- A wide product range for all major standard Lay-on ceiling tile sizes
- Flexible and customization oriented, bespoke sizes are welcome
- Professional LED lighting manufacturer, ODM for EU top lighting brands, no risk for partnership
